Pioneers '19: Getting to the Heart of Deep Tech

Vienna – Vienna will once again become a meeting point for pioneers in tech from May 9th-10th. Where do we come from? Where are we going? And how is deep tech changing our lives? Together with international forerunners and experts coming together at the Vienna Hofburg Imperial Palace, we will answer these questions at the Pioneers flagship event under the theme of ‘Walk the Talks’.

Where do we come from? Where are we heading? How does deep tech help us understand and enhance the ‘human journey’?

We will answer these questions in topic blocks throughout the event. Our *Origins of Life* segment is all about the positive impact of Deep Tech on our lives: we take a closer look at Artificial Intelligence, Blockchain, Virtual and Augmented Reality, and Quantum Computing, and answer the most challenging, fundamental technology questions facing us in our lifetime.

Ranging from genomics in our *Pre-Birth* segment to EduTech in our *Childhood* segment and the new technology around healthy longevity in our closing *New Life* segment, we'll present and discuss the most impactful deep tech at our current disposal.

How do we pave the way for future generations?

“Despite our focus on deep tech, humans have always been at the center of Pioneers. That’s why we’re asking fundamental questions on the origins and further development of life,” says Oliver Csendes, CEO of Pioneers. “The theme ‘Walk the Talks’ allows us to go deeper and look past the buzzwords and the hype. This year’s speakers will present forward-thinking and future-oriented ideas, as well as technologies that truly result in improvement.”

About Pioneers

At Pioneers, we inspire, empower and create. Our purpose is to foster growth and innovation with a focus on deep tech. Since 2009, our diverse team has built an ecosystem, creating collaboration opportunities for tech innovators. We bring together startups, corporate executives, public sector innovators, and investors through digital solutions, consultancy services, events and investments to create a prosperous future.

Find out more about our various offerings and network under <https://pioneers.io/#/> or follow us on social media.
